

Why we pray outside our community abortion providers...

- MI abortion centers and hospitals end the lives of over 27,000 prenatal children annually – 64% of them in metro Detroit
- What abortion staff call “blobs of tissue” have livers, hearts, arms and legs which are being harvested for medical research.
- Publicly praying outside abortion centers reduces the number of abortions committed there by as much as 75%.
- Abortion centers are “Ground Zero” of hopelessness, hard-heartedness and gov't-approved child abuse.
- Mothers in crisis need Christ's love & mercy; not abortion.

Some 40 Days for Life groups pray outside Planned Parenthood clinics, which may or may not commit abortions. However, all PP clinics either provide abortions or abortion referrals.

We pray outside Planned Parenthood because...

- Planned Parenthood is the #1 abortion provider.
- PP doctors modify abortion procedures, “crushing above, crushing below” to harvest fetal livers, hearts, brains, which they call “tissue” or “specimens”, for resale to medical researchers.
- PP helps young people to break 5 of the 10 Commandments
- PP's promotion of unbridled sex contributes to STD pandemic affecting 1 in 2 sexually active MI young adults.
- PP's cynical attitude toward women and children can only be changed through prayer.

We believe that abortion is a grave offense against God who is the Author of Life. We respect others beliefs and understand that some people believe that women have a right to abortion.

We do not interfere with women seeking abortion beyond a kind offer of help.

We stand here in witness against what we consider to be a horrible atrocity.

We public mourn the lives lost in our community abortion centers.
